# TEAM BUILDING NEWS

### WHAT ARE BRILLIANT TEAMS?

Any organisation, business or corporate depends upon great teamwork for its success. Teams require leadership for direction, experience and motivation to perform as a 'Brilliant Team'. Often, the personal accredited with this responsibility has experience only and none or little of the other tools required to lead a group productively.

Our intention is to guide the participants through a series of programs, designed to find, develop and master the important aspects of leading a team whereby they may be able to extract the best from their team. Additionally these leaders should be asking the question "what is in it for me?" The Brilliant Teams one day Workshop consists of 3 modules, each in the form of working groups and team development programs. 'Get more out of your team, call us for more details'.

Wine Blending becomes a team building must. **VINO FUSION** is the art of blending wine.
